

# Back-to-School Safety: Infrastructure Checklist

As we head into the 2022-2023 school year, it is a good idea to check your school's infrastructure for any safety issues. Here are some suggestions for questions to ask as you are inspecting your campus:

- 1 Have you mitigated classroom overcrowding?
- 2 Are buildings sufficiently ventilated?
- 3 Are bathrooms well-maintained and free of plumbing issues?
- 4 Is playground equipment structurally sound and free of hazards?
- 5 Are evacuation routes free of obstructions?
- 6 Are parking lots and car lines unobstructed and free of damage?
- 7 Are cafeterias and other common areas arranged to prevent overcrowding and conflict?
- 8 Are all buildings free of leaks and structural damage?
- 9 Are all doors and gates secure?
- 10 Does your school have a reporting system in place for maintenance issues?
